

Erasmus+ Strategic Partnership in the field of Vocational Education and Training – Partner Search

To whom it may concern

The Bavarian State Institute for School Development and Educational Research (ISB) would like to participate in a project within the European programme Erasmus+ on the basis of a KA 2 – Strategic Partnership in the field of Vocational Education and Training. The ISB is a subordinated institution of the Bavarian Ministry for Education and Culture, Science and Art. The ISB works in various fields of education and training. Its main activities are the support of schools in all questions of teaching and education as well as the development of curricula. The ISB is located in Munich.

Description of project ideas:

The ISB is especially looking for projects covering the following topics:

School development and quality assurance within the sector of vocational education and training

Subordinate targets can be e. g.

- comparison of different approaches / review of the current status
- discussion about advantages and drawbacks of the various approaches
- discussion about supporting factors and obstacles for schools
- investigation of needs and desired support among the relevant organisations
- development of future activities / ways for improvement of the individual approaches
- development of activities to improve / optimize approaches with respect to equity and inclusion in the field of vocational education and training

Outcome-oriented curriculum development within the field of vocational education and training

Subordinate targets can be e. g.

- comparison of different approaches
- enhancing the sense of initiative, entrepreneurship and labour market relevance
- promotion of the preparation and training of trainers in the course of the implementation
- promotion of innovative teaching methods and assessment
- development of open educational resources (OER), e. g. for the practical use of language skills, strategic use of information, open and flexible learning.

Cross-cultural competence

Subordinate targets can be e. g.

- investigation of training institutions providing training for migrants and other relevant adult groups
- training of trainers with respect to a greater understanding and responsiveness towards social, linguistic and cultural diversity
- development of open educational resources (OER), e. g. an online-platform that addresses crucial topics of cross-cultural competence

Types of envisaged actions and outcomes:

All actions and outcomes should be agreed by the coordinating organisation together with all the participating organisations of the project. The contribution to the project by the ISB includes, but not limited to, the following activities:

- | |
|---|
| <ul style="list-style-type: none">- Search for local partner institutions that offer a distinct contribution to the project objectives- Exchange of best practice and individual views and knowledge- Establishing an online-community among the participants of the project- Organisation of seminars and workshops with experts, meetings and study visits- Preparation of intellectual outputs- Dissemination of project results and supporting material- Assessment of the project and the conducted activities |
|---|

The ISB would be very pleased to participate in a KA 2 - project in one of the topics mentioned above. We do hope that this offer for collaboration finds your interest. Please feel free to pass on this information to your contacts.
