

INVITATION

to the

1st CoRAI Summit on the **Future of Autonomous Mobility**

and the

Exhibition on **Testing Autonomous Driving.**

*Opening by **Johannes HAHN**, Member of the European Commission,
and **Barbara EIBINGER-MIEDL**, President of the CoR Automotive Intergroup*

on Wednesday, **9 October 2019.**

Participation is free but [registration is mandatory](#) (Deadline: 30.09.2019)

Wednesday, 9 October 2019

13:30 – 18:00 hrs

Charlemagne Building, Rue de la Loi 170, Room MANS, Ground Floor

MODERATOR: Richard TUFFS

LANGUAGES: German, English and Spanish

European
Commission

We cordially invite you to the 1st CoRAI Summit on the Future of Autonomous Mobility taking place on 9 October 2019 at the Charlemagne Building, Rue de la Loi 170, Room MANS.

13:30 Registration and coffee

14:00 **TESTING AUTONOMOUS DRIVING EXHIBITION**

Johannes HAHN

Member of the European Commission

Barbara EIBINGER-MIEDL

CoRAI President and Minister for Economy, Tourism, Europe, Science and Research in the Steiermark Regional Government

Exhibitors:

- ZalaZONE Proving Ground Project and its Regional Interrelations
- KIT Baden-Württemberg
- Valencia Autonomous Driving Project
- CLEPA Presentation of Future Activities on Autonomous Driving
- SISCOGA_{4CAD}- Test Bed for Connected & Automated Driving (Galicia)
- Modena Automotive Smart Area (Emilia-Romagna)
- TRACASA: 3D Mapping Using Galileo Satellites (Navarra)
- AC Styria (Steiermark)

Who Will Be In The Driving Seat? Mobility Trends Of The Future

Jost BERNASCH

CEO AlpLabs and Virtual Vehicles

WHAT LESSONS HAVE BEEN LEARNT?

Recommendations from Automated and Connected Mobility Projects

What forms of automated driving are being tested and what conclusions can we draw from these tests? What are the lessons learnt and which recommendations can project leaders give to regional and local politicians and to the decision makers on the EU level?

- Sofie VENNERSTEN: Drive Sweden - Collaboration for Developing the Future Transport System (Gothenburg)
- Francisco SÁNCHEZ-PONS: SISCOGA_{4CAD}- Test Bed for Connected & Automated Driving (Galicia)
- Efrén ALONSO: León 1st NERTRA City (Castilla y León)
- András HÁRY: ZalaZONE (Hungary)
- Francesco GUARALDI: Modena Automotive Smart Area (Emilia-Romagna)
- Nere GARMENDIA: Navarra Automotive Testing Zone (Navarra)
- Wolfgang FISCHER: e-mobil Baden-Württemberg (Baden-Württemberg)
- Raquel PIÑAN: AiC- Automotive Intelligence centre- Accelerating Innovation (Basque Country)

European
Commission

What Can We Expect From The EU?

Joanna SZYCHOWSKA

DG GROW Head of Unit – Automotive and Mobility Industries

Coffee break and opportunity to visit the exhibition

HOW CAN AUTONOMOUS MOBILITY CHANGE OUR LIVES?

While industry is testing technical solutions for autonomous driving it's time for regional and local decision makers to include this new technology into their long-term strategies. What impact will autonomous driving have on public transport? Will "on demand" buses make rural areas more attractive or should we plan our roads differently? Will this mobility-evolution have an influence on jobs? Can it boost regional development and help to create an inclusive society?

What Do People Think About Autonomous Mobility? Outcomes of the Citizens' Dialogues

Christian STEGER-VONMETZ

Austriatech – Automated and Clean Mobility

High-Level Panel

Jürgen UDE

State Secretary in the Ministry of Economy, Science and Digitalization of the State of Saxony-Anhalt (DE)

Francisco CONDE-LÓPEZ

Regional Minister for Industry of Galicia (ES)

Alexander ARRIOLA LIZARRITURRI

Director General of the Public Agency for Economic Development of the Basque Country (ES)

Closing remarks

Barbara EIBINGER-MIEDL

CoRAI President and Minister for Economy, Tourism, Europe, Science and Research in the Steiermark Regional Government

18:00

End of the conference and opportunity to visit the exhibition
